## POLICY RESOLUTION NO 24

- Topic** Register of Licensed Surveyors
- Subject** Re-registration of Licensed Surveyors
- Policy** The Board resolved that a Licensed Surveyor, who was previously registered, and applies to be re-registered, must supply evidence to demonstrate they have the core knowledge, and the contemporary skills and experience to practice land surveying in the NT.

For Licensed Surveyors, who have been unregistered in the NT for a period less than 12 months (365 days), will be required to attend a professional assessment\* with the Board.

For Licensed Surveyors, who have been unregistered in the NT for a period greater than 12 months (365 days), will be required to -

- Produce a record that proves successful completion of their academic qualification, which normally equates to a 4 year surveying degree. Note the Board will consider equivalent credentials which have been obtained through a recognised system of knowledge assessment.
- Work under the supervision of a practising Licensed Surveyor, who has been registered in the NT for at least 2 years. The period of supervision will be 3 months for each year unregistered, however the period shall not exceed 12 months. That is, a minimum period of 3 months and up to a maximum of 12 months for a non-registration period greater than 4 years.
- Be assessed and certified by the supervising practising Licensed Surveyor that they are competent and have the necessary capabilities to take responsibility for land surveys in the NT. (Form 5)
- Undertake a complex cadastral survey\* and provide all the necessary documentation (to the Board) that is required for plan approval by the Surveyor-General.
- Attend a professional assessment\* with the Board.

\* Defined in the "Training Requirements for Graduates" document

**ADOPTED** in the meeting of 17 May 2022
