POLICY RESOLUTION NO 21

TOPIC Supervision - Professional Training Agreements
SUBJECT Supervision

The purpose of this document is to ratify the Surveyors Board of the NT's (the Board) policy on supervision of a graduate surveyor under a Professional Training Agreement.

The Board's policy on this matter is based on the documents "Training Requirements for Graduate Surveyors under NT Licensed Surveyors Act" and "Guidelines for Supervising Surveyors and Surveying Graduates".

The Board also maintains that in order for a Supervising Surveyor to fulfil their responsibilities and provide adequate supervision, the Supervising Surveyor must be –

- A Licensed Surveyor who has been registered in the NT for a minimum of 2 years,
- Employed at the same business (or organisation) as the graduate surveyor and in a capacity that is deemed by the Board to be appropriate; and
- Actively practising as a Licensed Surveyor in the NT.

ADOPTED in the meeting of 26 July 2018.
