POLICY RESOLUTION NO 23

TOPIC Supervision of Survey Work

SUBJECT Surveys Undertaken by Persons Other Than Licensed Surveyors

POLICY The Board resolved to endorse the meaning of 'supervision' in relation to Clause 3 of Part 1 of the Directions under the Licensed Surveyors Act 1983 and to confirm its expectations of Licensed Surveyors who do not personally carry out the survey.

In order to fulfil their responsibilities for adequate supervision, a Licensed Surveyor must ensure that:

- They manage, direct, instruct, order, oversee, regulate and control the performance and operation of the survey sufficient to ensure compliance; and
- The person who carries out the survey is formally engaged or employed by the same business (or organisation) as the Licensed Surveyor who is in a capacity that is deemed by the Board to be appropriate; and
- They are actively practicing as a Licensed Surveyor in the NT.

ADOPTED in the meeting of 17 November 2020
